Maple Technologies Awarded Contract by Pinelands Insurance Company to Provide Web-Based Policy and Claims Management System Solution

Manalapan, NJ – February 6, 2007: Maple Technologies will be rolling out its real-time Aspire Information System in 90 Days, a fully integrated platform that will support Pinelands' commercial automobile insurance business operations.

Aspire's unique custom configuration flexibility will allow Maple Technologies to deliver the system build-out quickly through a 90-day speed-to-market fast-track development for Pinelands.

Aspire's web-based real-time interface will include electronic application processing, rating, underwriting validation, policy issuance, endorsement processing (including out-of-sequence endorsements), premium accounting, reinsurance reconciliation, user-based rate table and underwriting rule maintenance, paperless document environment as well as claims administration functions for the Pennsylvania insurance carrier.

"In looking for a viable systems solution for our transportation insurer, we selected Maple Technologies based on their ability to combine a claims and underwriting solution tailored to our needs. The Aspire system meets those needs without requiring a huge hardware investment or additional IT staffing," said Ronald P. Hambrecht, Chairman of Pinelands.

"Aspire will offer a fully integrated, scalable and complete Applications Service Provider solution for Pinelands," said Nicholas Teetelli, CEO of Maple Technologies. *"Aspire will address all of their business processing requirements and afford efficiencies to streamline their operations."*
