

## Maple Technologies signs Pinelands Insurance up for Aspire

6th February 2007

By Staff Writer

**US insurer Pinelands Insurance Company has announced that it will be rolling out Maple Technologies' Aspire Information System as its primary fully integrated operating platform to support its commercial automobile operations.**

Aspire, Maple Technologies' main product, is a comprehensive web-based internet insurance policy and claims management system.

Maple Technologies is beginning a 90-day speed-to-market customization for Pinelands' complete IT solution to support the carrier's multi-state commercial automobile business platform. Pinelands currently writes business in Pennsylvania, New Jersey and Delaware, but plans to expand to additional states shortly.

Aspire's web-based real-time interface will handle electronic application processing, rating, underwriting validation, policy issuance, endorsement processing (including out-of-sequence endorsements), premium accounting, reinsurance reconciliation, and claims administration functions for the Pennsylvania-based insurance firm.
