**Maple Technologies Responds with Speed-to-Market Agility for Florida Insurer's Bid to Capture Market Position in Florida's Hard Property Insurance Market**

*Manalapan, NJ – March 7, 2007: Maple Technologies deployed an Add-On Commercial Package Policy Module today for Commercial Insurance Alliance; configuration implementation was completed for the Florida insurer in 30 business days.*

Using its powerful Aspire backbone, Maple Technologies configured a fairly comprehensive commercial package policy implementation, supporting 8 different property programs as well as many supplemental coverage elements. Aspire's web-based real-time interface will handle agent-driven electronic application processing, rating, underwriting validation, policy issuance, endorsement processing, premium accounting as well as claims administration functions for the Florida insurance carrier.

*"Through our outstanding reinsurance relationships, Commercial Insurance Alliance secured capacity for property insurance for Florida's hard property market," said Larry Haynes, President of the Company. "However, we could not take full advantage of the opportunity without systems support in place to handle our business process. In a very short and quick timeframe Maple Tech's team responded and delivered a powerful and comprehensive IT solution to our company that will allow us to go to market quickly and capture the opportunity."*

Nicholas Teetelli, CEO of Maple Technologies said: *"Aspire is a powerful and robust business solution for any carrier. Its architecture offers us the flexibility to bring new product lines to a production level capability quickly and efficiently. We are pleased that we were able to respond quickly and effectively to Commercial Insurance Alliance's opportunity needs."*
